

# 筒子纱脱水机

Cheese dewatering machine

为筒子纱染色后脱水、筒子不变形。

选用优质不锈钢材料作内胆、外壳。

性能优良、运转平稳、平衡性好，脱水率高、噪音小等优点。

Dehydrate the cheese after dyeing, and the cheese will not deform.

Use high-quality stainless steel materials for the inner tank and outer shell.

Excellent performance, stable operation, good balance, high dehydration rate, low noise and other advantages.
